Subject: Cultural Resources Concurrence Request, Pine Ridge Excavation and Landscapes, Pine Ridge Rock Products Quarry, S/057/0010, Weber County, Utah

Dear Ms. Hunsaker:

The Division of Oil, Gas and Mining has received a proposal from Pine Ridge Excavation and Landscapes to conduct small mining operations in Sections 28 and 33, Township 8 North, Range 1 East in Weber and Cache Counties, Utah. Enclosed with this letter are copies of the Class I cultural resources survey report and the location map provided by the operator. The location map includes areas that might be affected by mining operations, but only a 10-acre area is proposed at this time.

The survey for cultural resources found 17 previously recorded sites within one mile of the operation. One unevaluated site was found within the area to be potentially affected by the mine. It is identified as 42CA32. The Division will stipulate that this site not be disturbed. All other identified resources are located outside the area proposed to be mined.

The Division of Oil, Gas and Mining has determined that there will be **No Adverse Effects** to significant cultural resources, and we seek your concurrence with this determination.

Thank you for your assistance. Please call me at 801-538-5261 if you have questions about this request.

Sincerely,

Paul B. Baker
Minerals Program Manager
